Performance by Segment

- Retail supported by campaign-led deposit growth and wider margin, alongside stronger credit card activities, partly moderated by softer wealth income
- Wholesale driven by margin expansion and higher client activities across investment banking, transaction banking and treasury customer flows
- Global Markets impacted by steeper rise in funding costs which more than offset yields on securities, while non-interest income doubled, contributed by gains from foreign exchange and commodity trading

Net Interest Income and Margin

- 4Q22 NII reached new high, up 15% QoQ boosted by continued NIM expansion (+27bps)
- FY NII grew 31% YoY as NIM widened 30bps on aggressive rate hikes and healthy loan momentum

Fee Income

- Stellar performance in credit card activities in FY22 and 4Q22 from higher customer spends and boosted by Citi consolidation
- Wealth and fund management fees eased as investors sentiments remained subdued alongside seasonally softer quarter

Trading & Investment Income

- Customer related treasury income grew 20% year on year driven by hedging demands
- Others affected by valuation headwinds

Core Expenses and Cost / Income Ratio (1)

- FY22 CIR improved to 43.3% on the back of strong income growth and disciplined spending
- Continued focus on strategic investments in people and technology to enhance capabilities and improve customer experience

Diversified loan portfolio

Note: Financial statistics as at 31 December 2022

1. Loans are classified based on where credit risks reside, represented by country of incorporation/operation for non-individuals and residence for individuals.

Exposure to Greater China

As at 31 Dec 2022:

Mainland China exposure

(\$22.3b or 4% of total assets)

Bank exposure (\$8.3b)

- ~40% of total exposure to Mainland China, with top 5 domestic banks and 3 policy banks accounting for ~65% of total bank exposure
- 99% with <1 year tenor; trade accounts for ~40% of total bank exposure

Non-bank exposure (\$11.2b)

- Client base include top-tier state-owned enterprises, large local corporates and foreign investment enterprises
- ~60% denominated in RMB and ~50% with <1 year tenor
- NPL ratio at 0.6%

Hong Kong SAR exposure

(\$40.8b or 8% of total assets)

Bank exposure (\$0.8b)

- ~80% are to foreign banks

Non-bank exposure (\$34.5b)

- Exposure mainly to corporate and institutional clients
- ~50% with <1 year tenor
- NPL ratio at 1.1%

Exposure to Commodities Segment

- As of 31 December 2022, outstanding loans to the commodities segment remain modest and represented 6% of total loans

Dec 22	Oil and Gas (O&G)		Other Commodity Segments ²	Total
	Upstream industries ¹	Traders / downstream industries		
Outstanding loans	S\$1.9b	S\$8.0b	S\$8.8b	S\$18.7b
Percentage of total loans	3%		3%	6%

Outstanding O&G exposure is to downstream players and traders which are mainly national oil companies (NOCs) and global firms, while short-term structured loans account for a significant share of the remainder.

A considerable portion of upstream exposure is to NOCs and international oil companies, while vulnerable accounts were already classified and their collateral value marked down (by as much as 90%) by end 2017.

Note:

(1) O&G upstream industries include offshore service companies.

(2) Other commodity segments refer to agribusiness, metals and mining.
